

Rochester Institute of Technology
DIRSIG® SOFTWARE LICENSE AND USAGE AGREEMENT

This **DIRSIG® SOFTWARE LICENSE AGREEMENT** is agreed to as of _____ / _____ /20____ by _____ (“Organization” or the “Licensee”) located at _____. By executing this Agreement, Organization agrees to the terms and conditions set forth herein to allow them to use the Software Program entitled *Digital Imaging and Remote Sensing Image Generation (DIRSIG®), Version 4.3* (“Software”) owned and developed by the Rochester Institute of Technology, One Lomb Memorial Drive, Rochester, New York 14623-5604 and its Chester F. Carlson Center for Imaging Science (“RIT” or “Licensor”). The terms of this license and use of DIRSIG are summarized below:

1. The Organization is hereby granted a limited, non-exclusive site license to use the DIRSIG Software, or portions thereof, within the field of use limited to the generation of data in support of existing or possible future U.S. Government contracts or programs. Internal use which targets possible future U.S. Government programs is permitted by the Organization. No non-U.S. Government use is licensed or authorized by this License Agreement.
 - (1) The Licensee shall comply with all applicable U.S. laws involving export control in their use of the Software to analyze any controlled data imported into the Software and the technical outputs of that data.
 - (2) The Licensee agrees to insure that only citizens of the United States use the software.
2. Upon execution of this agreement, the Organization shall be provided one copy of the Software for use on the site location described and set forth in attached Exhibit A. The terms of this license and usage agreement shall allow multiple users to access and use this Software at the location described in Exhibit A, provided all those users have first been trained in how to use the Software by RIT DIRSIG staff by attending at least one training session of “DIRSIG Basic Training.”
 - (1) RIT may, but is not obligated to, provide at its sole discretion updates and later versions of the Software to the Organization. These updates may be subject to additional documentation, conditions, requirements, training, and other terms at the discretion of RIT.
3. The Organization shall not make any unauthorized copies of the Software, or integrate the Software, or any portions thereof in the development of products or services for either internal, commercial, or non-U.S. Government programs, without the express written authorization and consent of RIT. The restrictions of this paragraph shall survive termination of this Agreement.
4. The Organization expressly acknowledges and agrees that the Software and the DIRSIG name is “the property of” RIT. Thus, the Organization agrees:
 - (1) to use the Software solely for the purpose as cited in Section 1. and/or for the testing and evaluation to assist in the development of potential collaborations

or other joint arrangements with RIT and the RIT Digital Imaging and Remote Sensing (DIRS) Laboratory.

- (2) not to redistribute the Software to any others, except its own employees, who are bound to the Organization to not disclose the Software by a like obligation, without the prior written permission of RIT. No sub-licensing of this Software under any circumstances shall be allowed.
5. Warranties: RIT, its trustees, directors, officers, employees, and affiliates make no representations and extend no warranties of any kind, either express or implied, including but not limited to warranties of merchantability, fitness for a particular purpose, validity of patent, trademark, or copyright rights claims, issued or pending, and the absence of latent or other defects, whether or not discoverable regarding this software. Nothing in this license agreement shall be construed as a representation made or warranty given by Licensor that the practice by Licensee of the license granted hereunder shall be accurate, or not infringe the patent or copyright rights of any third party or allow certain conclusion. Licensee is responsible for all technical and research outcomes from agreeing to use the Software. In no event shall licensor, its trustees, directors, officers, employees and affiliates be liable for incidental or consequential damages of any kind, including economic damage or injury to property and lost profits, regardless of whether licensor shall be advised, shall have other reason to know, or in fact shall know of the possibility. The provisions of this paragraph shall survive termination of this Agreement.
6. The Organization hereby agrees to indemnify, defend, and hold harmless RIT its respective officers, trustees, directors, employees and agents from and against any and all claims, causes of action (including third-party claims) and costs for any injury, claim, property damage or any other losses related in any way to the use of the Software by Licensee. The provisions of this paragraph shall survive termination of this Agreement.
7. If Licensee should violate or fail to perform any covenant, condition, or undertaking of this Agreement or cease to carry on its business with respect to the rights granted in this Agreement; then RIT may give written notice of such default to Licensee. At its discretion, RIT may give the Licensee 30 days to cure the default, or terminate this Agreement within 30 days. If Licensee is given the opportunity to cure the default, and should fail to cure any such default within thirty (30) days of receipt of such notice, the rights, privileges, and license granted hereunder shall automatically terminate. In the event of termination for any reason the licensee shall be bound by paragraph 8 regarding the return of the Software.
8. Return of Software: Upon expiration or termination of this Agreement by either party for any reason, Licensee shall within 30 days provide Licensor with the return copy of the Software, an inventory of how many copies of the Software were in use at the site, and a signed statement attesting that all other copies have been deleted from their computer systems and/or destroyed.
9. Licensee shall not use the brand names or trademarks of Licensor, or the names of any of their employees, or any adaptation thereof, including the names RIT or DIRSIG in any publicity, advertising, promotional or sales literature, presentation or contract proposals,

demonstrations, or in any publication, without the prior written consent obtained from Licensor.

10. This Agreement contains the entire agreement between the parties for the Software and supersedes all previous written or oral Agreements involving the parties and DIRSIG. No amendments or changes to this Agreement shall be effective unless made in writing and signed by authorized representatives of both parties. The failure of Licensor at any time to require performance by the other of any provisions herein shall in no manner affect the right thereafter to enforce the same. Likewise, the waiver of Licensor of any breach of any provision hereof shall never be construed to be a waiver of any succeeding breach of any provision or a waiver of the provision itself.
11. This Agreement shall be interpreted and enforced pursuant to the laws of the State of New York without regard to its conflicts of law principles.

The Organization listed below signs this Agreement and agrees to be bound by its terms.
